

2021 Product Guide - New Products

SHOWN WITH NO PIN RING //

4 PIN RING POSITIONS //

# MV2

 8-32 LIGHT PORT

The MV2 scope is machined with an angled light port to shine a light on the center of the lens. An additional light port is included on each MV2 Pin Ring System.

 PIN RING SYSTEM (PRS)

By loosening 2 set screws, a new PRS can be installed and immediately used. This means multiple pin sizes and fibers can be utilized in seconds.

 ADJUSTABLE FIBER COVER

An adjustable fiber cover shades the preinstalled tubing that wraps around the PRS and with a simple twist limits the amount of light reaching the fiber.

 4 POSITIONS FOUR PIN POSITIONS

Optional Pin Ring Systems can be installed with the pin in 4 different locations to give shooters multiple options for pin placement.

CLIP SYSTEM ENABLES S-PACK BAGS TO BE ATTACHED //

FELT LINED INTERIOR POCKETS //

# S-PACK SYSTEM

Years of travel have taught us a thing or two about protecting our gear and we've rolled all of that experience into our all-new S-Pack line. Each S-Pack is designed to be used individually or clipped together to create the ultimate system for stabilizer protection. The S-Pack line is constructed using a durable, ripstop nylon outer shell combined with a padded felt interior for maximum stabilizer security.

The double S-Pack has two, padded stabilizer sleeves with an additional storage pocket for small accessories. With the main sleeve measuring 37" and the secondary sleeve measuring 20" the double S-Pack can fit the majority of stabilizers.

The single S-Pack has one, 23" long main pocket and includes clips so it can be attached to the double S-Pack.

## TUNGSTEN WEIGHTS

With almost twice the density of stainless steel, tungsten weights help archers utilize a more compact weight system that reduces the overall size of the weight stack. Tungsten weights are available in 1 and 4 ounce options in a silver and smooth black finish.

## UMBRELLA BRACKETS

All new Sidekick umbrella brackets are built to be as tough as the chair they mount on. Designed to attach directly to the Sidekick chair each bracket utilizes existing mounting holes so no drilling is necessary. Each kit includes a top mount, bottom mount and mounting hardware.
